

# fly & try Program

We're so confident we'll improve your wax-room performance and profitability, we'll...

- Fly You to MPI Headquarters
- Inject Your Own Patterns
- Demonstrate Our Superior Equipment
- Show You The "MPI Difference"

Or we'll come to you and perform a **FREE Wax-Room Evaluation!**

**MPI**

845.471.7630 • [www.mpi-systems.com](http://www.mpi-systems.com)

The team at MPI is so confident that we can improve your wax-room performance and profitability, that we developed the Fly & Try program. Simply send us your dies and wax and we'll fly you to our world headquarters in New York, where you can test drive our equipment and see firsthand how MPI machines produce the most consistent, repeatable, accurate, high-quality wax patterns and assemblies in the world.

Or if you prefer, MPI will fly to your facility and perform a **FREE** wax-room evaluation. MPI engineers will tour your facility and perform an exhaustive review of your current process and help you to understand what type of return on investment (ROI) you may experience as a result of increased performance and cost savings by using MPI as your wax-room partner.

Instead of just talking about performance and profitability, we are willing to put our money where our mouth is and demonstrate the difference in person.

**Contact MPI today to schedule your  
TRIP TO NEW YORK!**
